

## Planetary Phenomena

For the five visible planets known in antiquity entries in the Diaries include what have become known as the "Greek-Letter phenomena." They are presented below in the table and also shown for Jupiter in the following figure:

INFERIOR PLANETS		SUPERIOR PLANETS	
First Appearance in the East	G	First Appearance (in the East)	G
Stationary point in the East	F	First Stationary point	F
Last appearance in the East	S	Opposition	Q
First appearance in the West	X	Second Stationary point	Y
Stationary point in the West	Y	Last appearance (in West)	W
Last appearance in the West	W
